

# PTO Newsletter

Crescent Academy International

## Assalaamu Alaykum everyone!

Congratulations! PTO brought to you "Physics Is Fun" science assembly sponsored by Box Top Funds. Let's try to collect 11,000 and earn a creative, crazy hat day!

The show covered sound (what it is, how we hear and why we hear), inventions of Robert Van de Graaff and Nikola Tesla (static electricity), Edison's light bulb, gyros and gyroscopic stability, Newton's third law (action and reaction), and how fire is created.

We collect Box Tops all year round, so the fun never stops.

## Hadith of the Month:

**Narrated Abdullah bin Amr (RA): A man asked the Messenger (SAW) "Which act in Islam is the best?" The Prophet replied "To give food, to greet those whom you know and those whom you do not know." Bukhari & Muslim**

### Skating Station

Come join us for some family fun time on March 16th from 4:30 to 6:30

### Jummah Treat

Are you excited for some S'mores? To be served on March 18th at lunch time

### Jummah Treat

Third Jummah Treat will be on April 22nd - what do you think we will be serving this time?

# Poetry Corner

KG students have been learning poetry and would like to share their works

In meat group  
Chicken, Chicken

by Maryam Salman (KG B)

## Bicycles:

Bikes are really cool  
I have a green bicycle,  
They are really fast!

by Yusuf Ahmed (2A)

Depend on me because you shall need me.  
I am shelter to you.  
And climb up my stairs because you'll need it.  
I am your soul.

by Amina Melkic (4B)

## RECIPE: STRAWBERRY BANANA SMOOTHIE

1/2 cup apple juice  
1/2 cup plain yogurt  
1/2 cup heavy whipping cream  
1 cup fresh or frozen strawberries and 1 banana  
6 ice cubes

Place all ingredients into the blender and blend until smooth.  
Serve cold and enjoy.

# Artist of the Month

The artist of the month is Dalia Rabban (8th Grade). Please stop by the 2nd floor near the elevator and admire some of her artworks. Here is her short bio:

I've had a passion for art for as long as I can remember. Art comes in many forms and I produce both visual and audio art. I enjoy shading, creating, contrasting and geometrical pieces, composing classical music and playing the violin and keyboard. An artist I admire is the influential, Salvador Dali, who had a unique sense of humor and art style, and a flamboyant personality. I may not be any good at art right now, but art is an endless journey. There's always room to improve.

## More on science assembly:

Below are some testimonies from students in different grades on their thoughts of the "Physics is Fun" Science Assembly. We hope you all had a great time while learning some interesting facts about physics. Let us know if you would like to see this again in the future.

1

**7TH GRADER**

"What I love most about it is that he was funny and taught a lot of academic facts"

2

**2ND GRADER**

"I really liked it when he used the fire crackers and send a uno card flying across the room! It was so cool."

3

**KINDERGARTENER**

"It was fun and I liked it. I also liked it when my friend went up."

### Answers:

1. "You can count on me"
2. Really BIG pockets
3. Time Square
4. There were no stairs
5. To the snowball
6. The mooovies!
7. A mushroom
8. You are driving me crazy
9. Humphrey
10. Riverbank
11. A coin
12. Pencil-vania
